Analyses

Element	Grade	Standard Deviation	No of Analyses	Confidence Interval
Au - FA (ppm)	2.88	0.11	116	+/- 0.02
Au - AR (ppm)	2.82	0.16	48	+/- 0.048
Silver (ppm)	12.4	0.7	56	+/- 0.2
Copper (ppm)	1417	67	66	+/- 16.6
Lead (ppm)	47	7	59	+/- 1.9
Zinc (ppm)	122	16	69	+/- 4
Nickel (ppm)	34	8	57	+/- 2.1
Arsenic (ppm)	62	14	54	+/- 3.8
Cobalt (ppm)	78	9	59	+/- 2.2
Sulphur (%)	1.30	0.10	53	+/- 0.027

CRM Details

Control Statistic Details
Control statsitics were produced from results accumulated in the :
October-2007 Geostats Pty Ltd Laboratory Round Robin Program.
48 laboratories (at least) tested this material for base metal content.

Source Material
Prior to homogenisation and testing, this material was sourced from Low Sulphide free milling ore

Colour Designation
Light gray

Usage
This product is for use in the mining industry as reference materials for monitoring and testing the accuracy of laboratory assaying.

Preparation and Packaging
All standards are dried in an oven for a minimum of 12 hours at 110C. The dry material is then pulverised to better than 75 micron (nominal mean of 45 micron) using an Air Classifier. Thematerial is then homogenised and stored in a sealed, stable container ready for final packaging.

Materials are statistically sampled from stores, then packaged into either heat sealed, air tight, plastic pulp packets or screw top sealed plastic containers ready for distribution. All packagin has been chosen to ensure minimal contamination from outside sources during shipment, use and storage.

Assay Testwork
All standards are tested thoroughly in the Geostats bi-annual laboratory survey. This involves assaying by a minimum of 50 reputable laboratories selected from across the world using a variety of methods (including FA, AR, 3AD, 4AD and ICP, AAS and XRF). Results are compiled into a comprehensive report detailing statistics for each standard. Assay distributions are checked and processed statistically, producing monitoring statistics for these standards. Materials are tested regularly to ensure stability and homogeneity.
